

VITTANALA GNANA SREE

PASSIONATE AI ENGINEER

ABOUT ME

Passionate Computer Science student aspiring to become an AI Engineer with a strong interest in Artificial Intelligence, Machine Learning, and Full Stack Development. Skilled in Python, React, Django, and MongoDB, with hands-on experience building real-world projects. Dedicated to continuous learning, problem-solving, and developing innovative AI-powered solutions.

EXPERIENCE

InterviewGod.ai

Lead Generation

11.2025 - 12.2025

Worked on LinkedIn lead generation by finding potential candidates, sending connection requests, and supporting the team in building professional networks and generating quality leads.

PROJECTS

• Centralized District Progress Monitoring Dashboard

Developed a full-stack dashboard to monitor district-level projects in real time. The system includes role-based access, project tracking, budget monitoring, progress reports, and analytics to improve transparency and decision-making.

• AI Chatbot

Built an AI-powered chatbot using Python and the Google Gemini API to provide instant responses to user queries through an interactive and user-friendly interface.

• AI_Tools_Guide

Developed a web platform that helps users discover AI tools by category, compare their features, and access detailed information with multilingual support for a better user experience.

• Weather Report

Created a weather application that fetches real-time weather data using an API and displays current temperature, humidity, wind speed, and weather conditions with a responsive interface.

EDUCATION

Bachelor of Technology and Engineering
